

# Refurbished Rooms Now Open at Neerim District Health Service.

## SERVICES OFFERED BY NEERIM DISTRICT HEALTH SERVICE:

- Endoscopy.
- Cataract surgery
- General Surgery
- Urology
- Plastic Surgery
- Acute & sub acute medical ward
- Residential aged care

We cater for patients with private health insurance, or those who have medical cover through the Department of Veterans Affairs.

Quotes can be provided by our administration staff for treatment of self insured patients.

Neerim District Health Service is proud to unveil their completely refurbished acute care rooms. We now have very spacious single rooms available for patients with individual ensuite facilities. The finish and decor in the rooms has been completed to private hospital standard, and they complement the excellent care provided by staff and the peaceful, country environment. All rooms also offer stunning views over the local country side.

If your privately insured or DVA patients require hospitalization please consider having the care provided by Neerim District Health Service. Local medical practitioners are welcome to apply for admitting rights to care for their patients. This application is automatically approved if you are already credentialed with the West Gippsland Healthcare Group. Alternatively, Drs Fitzgerald and Jedynek from Neerim South Medical Centre will manage inpatients by agreement.

You are welcome to view our facilities at any time. Please contact the Health Service Chief Executive Officer, Craig Stuchbery, to make arrangements or if you would like any further information.
